S E R I E S

E / ED / ELK Type

Semiconductor Ball Valves

JBF - E / ED / ELK

BALL VALVE

Industrial fields

- Semiconductor
- Clean For Oxygen Service
- Hook Up
- Inert Bulk Gas Distribution
- CDA / OFA Systems
- Utility Nitrogen Systems
- Bulk Chemical Delivery
- Process Vacuum Exhaust
- Point-of-Use Isolation

Application Standards / Tests

- **Valve Body Material**

304 / 316 / 304L / 316L
Other materials on request.

- **Size**

- JBF-E: Tube OD 1/4" to 6"
Pipe ID 1/2" to 14"
- JBF-ED: Pipe 1/2" to 4"
- JBF-ELK: Tube OD 1/4" to 3/4"

- **Temperature Range**

-20~350°F (-29~175°C)

- **Pressure Rating**

ASME CLASS 150
JIS 10K / JIS 20K

- **Connection Type**

- SCH 5S/TUBE by automatic butt welding
- SCH 10S by manual butt welding

- **Clean Production Line**

- 10,000 Particles clean room
- Oil-free treatment
- Fully assembly and testing in clean room
- Vacuum bag package

- **Operation Mode**

- Lever / Handle / Gear Box
- Actuator

- **Purge Port Options**

NPP / OPP / IOPP

- **Casting Standard**

MSS-SP-25 / MSS-SP-55

- **Leak Test**

100% Leak tested.

- **Helium Leakage Rate**

- 1/4" - 8" valves leak tested to 1×10^{-8} scc / sec
- 10" - up valves leak tested to 1×10^{-7} scc / sec

- **Internal Surface Roughness Level**

- AP: Ra 0.8μm
- BA: Ra 0.4μm for 4" and below
- Ra 0.5μm for 5" and above
- EP: Ra 0.2μm Electrolytic Polishing
- Average roughness can be customized according to project requirements.

Highly Sophisticated Cleaning Process

JBF - E / ED TYPE 1 / 4"~4" (8A~100A) **DESIGN FEATURES**

Lockable
 1/2"~4" (15A~100A)

Live Loading

Low – Emission

Anti-blow out stem

Anti static device

Inner Roughness

- AP: Ra 0.8 um
- BA: Ra 0.4 um
- EP: Ra 0.2 um

JBF - E TYPE 5"~14"(125A~350A) DESIGN FEATURES

Adjustable Gland

ISO 5211 Direct
Mounting Pad

Double
Seal Ring

Low-Emission

Anti static
device

Anti-blow
out stem

Lifting
Eye Bolt

Purge Port
NPP / OPP / IOPP
SIZE: 1/4" or 1/2"

Lock Device

JBF - E

Patents in Taiwan

Taiwan

China

USA

Germany

The 1st valve manufacturer in Taiwan got awarded by Taiwan Excellence, and has been continuously 10 years.

• R&D

- The product features innovative R&D, demonstrating excellence in product functions and service systems.
- The product is characterized by intelligence and safety, energy efficiency, and design with environmental benefits such as energy conservation and carbon reduction.

• Design

- Adopts a systematic development strategy and has market competitiveness potential.
- The materials and processes used in the product do not cause pollution and are designed for environmental protection, energy saving, and carbon reduction.

• Product

- Total Quality Management (TQM) is extended to supply chain vendors, rapidly providing high-quality, innovative products that meet potential customer needs.
- Customer satisfaction is highly valued, with a systematic approach to measuring satisfaction that is integrated into the company's operational processes and control.

• Marketing

- Having a highly effective customer service system that can resolve customer issues in the shortest possible time.
- Developing and integrating diverse marketing communication media to conduct brand marketing and promotion.

The only valve manufacturer in Taiwan approved by TIPS (Taiwan Intellectual Property Management System) in Taiwan

Patents, Trademarks, Copyrights

Developed by the JDV R&D/IP team, patent law firms, etc., to establish patent map layout and manage the patent search database. Effectively grasp the core technology to ensure smooth operations for avoiding design conflicts, infringement protection, and resource utilization.
